Congress is preparing to debate health care reform legislation. The Catholic bishops of the United States strongly support genuine health care reform that protects the life and dignity of all, from the moment of conception until natural death. However, all current bills are seriously deficient on abortion and conscience rights, and do not yet provide adequate access to health care for immigrants and the poor.

Last weekend you received a special flier from the US Bishops Conference asking you to please contact your Representative and Senators immediately and urge them to fix these bills with pro-life amendments. The flier included a web address (www.usccb.org/action) that allows you to send an email message to Congress with a click of a button. The bishops have asked for our swift action and the commitment of our prayers for this critical effort. Thank you for your help. We can help make sure that health care reform will be about saving lives, not destroying them.
